

Maxcare

Maxcare is a fast growing Pharmaceutical and sundry business incorporated and based in Nigeria. We operate pharmacy and supermarket outlets across the country.

We live our mission of **offering high quality products and services that reflect our love for human lives** by focusing on a culture that delivers products that are consistently quality assured and affordable, as well as providing services that put big smiles on the faces of our customers.

In addition to running our own outlets, the company also distributes a wide range of pharmaceutical products for local and multinational manufacturers, serving a variety of end markets, including; hospitals, clinics, and retail pharmacy outlets.

Together with my team of dedicated staff, we strive everyday to keep driving the organic growth of the company, constantly reviewing our strategy to ensure we sustain a culture that creates enduring value for our customers.

My vision is to “build a retail pharmacy and supermarket chain that ranks among the top three players in the industry in Nigeria”.

I feel privileged to be the founder of this forward looking company and I am confident that together we are on the way up.

Chika Ugwuoke
MD

... Big smiles always!
